

ASIAFLUX ONLINE CONFERENCE

DECEMBER 20 - 21, 2021

special INVITED SPEAKERS

SARA H. KNOX
The University of British Columbia

FLUXNET-CH4 – a global database
of eddy covariance methane flux measurements

JOE BERRY
Carnegie Institution for Science

SiF and GPP

PRABIR K. PATRA
JAMSTEC and Chiba University

“Global and regional carbon budgets
– lessons from IPCC AR6 and MIROC4-ACTM inversions”

TREVOR KEENAN
University of California, Berkeley

“The FLUXNET Coordination Project:
A new initiative to support global network-enabled science”

JAMIE CLEVERLY
Associate Director of OzFlux,
and James Cook University

“20 Years of OzFlux: Lessons learned
and future OzFlux–AsiaFlux collaborations”

DANIEL EPRON
Kyoto University

“Emissions of methane from tree stems in forests:
where does methane come from and where does it go?”
